

**MAINE DEPARTMENT OF TRANSPORTATION
REQUEST FOR PROPOSALS
FOR
DEVELOPMENT OF 66 INDUSTRIAL DRIVE, AUGUSTA, MAINE
NOTICE TO BIDDERS**

Stormwater

The proposed project will trigger the General Standards of the Maine Stormwater Law (Chapter 500) and the Site Location of Development Act. Maine Department of Transportation has a Memorandum of Agreement (MOA) with the MaineDEP that covers our responsibilities under Chapter 500, and a General Permit that covers our responsibilities under The Site Location of Development Act.

Under the Site Location of Development Act General Permit, Section II D:

Storm Water Management and Erosion Control (38 M.R.S § 484-4-A):

MaineDOT shall construct and operate the development project in accordance with the most recent *Memorandum of Agreement for Stormwater Management between the Maine Department of Transportation, Maine Turnpike Authority, and the Maine Department of Environmental Protection* and *The Maine Department of Transportation's Best Management Practices For Erosion and Sediment Control (BMP's)*. MaineDOT shall require an Erosion Control Plan (developed by the contractor and approved by MaineDOT) for all projects under this General Permit. All projects meeting this General Permit shall comply with the Basic Standards of the DEP Stormwater rules.

Bidders should include a thorough understanding of the stormwater design requirements under these two laws as part of their bids for this project. If you have questions concerning the stormwater requirements please contact Stephen Tibbetts, P.E., MaineDOT Environmental Division, at (207) 557-3471.

Copies of the MOA are available at our website: <http://www.maine.gov/mdot/env/hydro.htm>. Copies of the Site Law General Permit can be obtained by contacting Stephen Tibbetts.
